

SOFTWARE REPORTING SYSTEM DESIGNED TO HELP YOU TRACK YOUR FLEETS FUEL USAGE AND LEVELS!

Fuel Updates

Get fuel level updates mere seconds after they've been updated from your laptop or desktop 24/7

Use Petrol Effectively

We can now handle fuel storage tanks 3m deep. Now enjoy better accuracy, longer service life and the ability to handle petrol as well as diesel.

View Everything

Digit is able to show all fuel adds, where they occurred, the date and time and how many litres were added. The same applies to any thefts.

WE'RE HERE TO HELP!

The Digit team is willing to walk you through the process to understand what we can do, to get you back in control. DFuel is designed to save you more money than it costs, so your profitability climbs, your efficiency improves and your business can grow.

With training and support from the Digit team, we will give you the tools to understand this technology so that it becomes the most valuable tool in your expense control.
